3	<ul style="list-style-type: none"> ▪ EDGE Software Practical Exercise Debrief ▪ Using EDGE Software to Maximize ROI
4	<ul style="list-style-type: none"> ▪ Energy Efficiency Measures ▪ Water Efficiency Measures ▪ Materials Efficiency Measures
5	<ul style="list-style-type: none"> ▪ Selling EDGE in the Market ▪ EDGE Exam Resources and Tips ▪ Conclusion

Frequently Asked Questions

1. Is this workshop right for me?

This workshop is primarily designed for architects, engineers, and green building consultants. It is also appropriate for property developers and owners and those in the construction, government, banking or finance industries that wish to learn more about EDGE. In addition, this workshop qualifies and prepares EDGE Expert credential candidates to take the EDGE Exam.

We strongly encourage you to take GBCI's free online "Introduction to EDGE" workshop, available in either [English](#) or [Spanish](#) before registering for this training. In only 30 minutes, you'll learn all about the EDGE software, the certification process, and business opportunities as both a consultant and EDGE Auditor.

EDGE is available for projects located in over 170 countries. Please visit <https://www.edgebuildings.com/certify/> to see the full list of countries where EDGE is available. Please note that GBCI administers EDGE certification in a subset of those countries (over 160 countries) and is the exclusive certification provider for all EDGE buildings in India. View the full list of countries where GBCI offers EDGE certification at <https://edge.gbci.org/where-edge-available>. GBCI is happy to provide you with EDGE training if you do business or plan to do business in markets where EDGE is applicable.

2. Will I get continuing education (CE) credits after completing this workshop?

Yes, the English workshop is eligible for 6 CE hours to maintain your LEED professional or AIA credentials. The Spanish version workshop is eligible for 5.5 CE hours as it is slightly shorter.

3. What is an EDGE Expert?

An EDGE Expert credential holder is a professional that helps a developer, owner, and larger project team understand the EDGE standard, software and certification system. The scope of the EDGE Expert's work includes advice on green design and assistance with preparation of an application for EDGE certification.

4. How do I earn my EDGE Expert credential?

LEED APs are prequalified. If you are not a LEED AP, you must have a higher education qualification in a construction industry related field OR three (3) years of experience working in the construction industry (as a skilled professional or tradesperson) and a higher education qualification (not necessarily in a construction industry related field).

Acceptable Construction Industry Roles		
Architect	Contractor	Planner
Architectural Technologist	Construction Manager	Procurement & Contracts Management
Bid Manager	Developer	Quantity Surveyor
Building Surveyor	Electrical Engineer	Site Engineer
CAD Technician	Estimator	Site Manager
Civil Engineer	Energy/Environmental Engineer	Skilled Tradesperson
Contracts Manager	Facilities Manager	Structural Engineer
	Mechanical Engineer	

Professionals that meet the eligibility requirements must complete this EDGE Technical Workshop and successfully pass the EDGE Exam in order to earn their EDGE Expert credential.

5. What are the benefits of having an EDGE Expert credential?

As an EDGE Expert, you will be seen by developers and owners as a trusted resource and advisor on EDGE certification. You can market your understanding of the EDGE software to potential developers, which will inspire confidence that their project can achieve certification with your knowledge, insights and support. This will allow you to develop new skills to stay competitive in the market, enabling you to expand your business and services and attract new customers. As an EDGE Expert, you will also influence best practices in bio-climatic design and make a positive impact by helping to create more resource-efficient buildings.

6. What is the EDGE Exam? Where can I take it? How much is it?

The EDGE Exam is administered by Prometric (a third-party testing center) and currently costs \$100 USD. A complete list of test center locations may be found at <http://www.prometric.com/edge> by clicking on the “Locate a Test Center” link. You may also take the EDGE Exam from the comfort of your home or office as long as your workspace and computer meet Prometric’s requirements. The EDGE Exam is administered via computer and consists of 75 multiple-choice questions with a 2.5 hour limit. All exams are closed-book. The exam is currently available in English, Chinese, Spanish, Vietnamese, and Indonesian Bahasa.

Please contact edgeexam@ifc.org with any additional questions about the EDGE Exam.

7. How do I prepare to pass the EDGE Exam?

Successful completion of this workshop is required in order to be eligible to sit for the EDGE Exam. While the workshop serves as your best preparation for the EDGE Exam, you should expect to invest additional time studying technical materials like the [EDGE Methodology Report](#), [EDGE User Guide](#) (and supplements), and IFC’s [EDGE Protocols](#) before you attempt to take the EDGE Exam. You can also check out our tips on [how to pass the EDGE Exam](#) on your first try from our past students. Finally, you may wish to take the official [EDGE practice exam](#) via Prometric (\$30 USD, payable to Prometric).

8. Can I retake the EDGE Exam if I do not pass the first time?

You may retake the EDGE Exam once more within two months of your first attempt. Retaken exams will be different from the original EDGE Exam. Each exam attempt will cost \$100 (paid to Prometric). If you do not pass the exam within the specified time period you will have to retake the training. Please note that you will have full access to the workshop for one year after purchase.

9. Is an owner or developer required to hire an EDGE Expert for a project seeking EDGE certification?

Hiring an EDGE Expert is not required. However, we highly recommend having an EDGE Expert or another individual on the project team that has experience with EDGE to help facilitate the certification process.

10. What is the difference between an EDGE Expert and an EDGE Auditor?

An **EDGE Expert** is a professional that helps a developer, owner, and larger project team understand the EDGE standard, software, and certification system. The scope of the EDGE Expert’s work includes advice on green design and assistance with preparation of an application for EDGE certification.

An **EDGE Auditor** is an individual who determines by investigation and evaluation of objective evidence whether a building meets the requirements of the EDGE Standard. The EDGE Auditor completes this assessment by reviewing project documentation (Design Audits), conducting visits to the project site (Site Audits), and making Recommendations for certification to GBCI. EDGE Auditors must be independent from the developer/owner/project team of the project they audit. The EDGE Auditor does not influence project design nor makes recommendations. The EDGE Auditor only becomes involved once the project application is received to begin the certification process.

EDGE Auditors have additional steps they must complete on top of what is required to be an EDGE Expert. EDGE Auditors must meet minimum [eligibility requirements](#), submit an application, and take GBCI’s EDGE Auditor Candidate Workshop. They also need to sign an EDGE Auditor agreement with GBCI and pay a maintenance fee. [Learn more](#) about the EDGE Auditor position.

11. How can I become an EDGE Auditor?

EDGE Experts may apply to become an EDGE Auditor at <https://edge.gbci.org/auditors>. You will also find a detailed description of the role, eligibility requirements, and process to become an EDGE Auditor on the same webpage. EDGE Auditor candidates must complete GBCI’s EDGE Auditor Candidate Workshop. [Learn more](#) about the EDGE Auditor position.
